About Darlene Kulig AOCA

Darlene Kulig's paintings are bold and joyous, whimsical and eye-catching. Her work can best be described as semi abstracted spirited landscape and each painting is dotted with her signature effervescent champagne bubbles. Darlene's artwork focuses on landmarks and landscapes from around the world, each containing her signature style. The paintings featuring her home country, Canada, are reminiscent of a time spent at a lakeside cottage, a hike through an Ontario woodland, the majesty of the mountains in the west, and the beauty of the red sand dunes in the east. They are geometric and semi-abstract, but unmistakable as the Canadian landscape.

Pomegranate Communications an award-winning independent publisher based in Portland, Oregon has released an assortment of Darlene's paintings as notecards, calendars, and jigsaw puzzles.
